CAREER OBJECTIVE

Motivated Computer Science graduate currently pursuing an M.Tech in Cyber Security, seeking an entry-level position as a VAPT / Security Analyst. Eager to leverage practical hands-on skills in web application security (OWASP Top 10), vulnerability scanning, Linux environments, and Python-based security automation to help protect organizational infrastructure while continuously learning and contributing within a dedicated security team.

PROFESSIONAL EXPERIENCE

Business Development Executive - Megaminds Technologies Pvt. Ltd. | **Sept 2025 – May 2026**

- Spearheaded enterprise client acquisition and strategic technical partnerships for customized software solutions.
- Formulated comprehensive technical proposals, Statements of Work (SOW), and architecture scope definitions with engineering teams.
- Managed end-to-end client communications, project scope definitions, deliverables, and relationship management.

PROJECTS

AegisWAF – Next-Gen AI Security Command Center [Code]

Python | Flask | Dual-Layer WAF | ML Anomaly Detection | SOC Telemetry

- Engineered dual-layer WAF combining deterministic regex with ML anomaly detection to block OWASP Top 10 exploits.
- Built a real-time SOC dashboard streaming live attack telemetry, threat blocking analytics, and persistent SQLite audit logs.

ARKA – Kinetic Analytics & Threat Correlation Engine [Code]

Python | Stream Analytics | Threat Telemetry | Event Correlation | CI/CD Security

- Designed a security intelligence platform ingesting high-throughput digital events and correlating multi-source threat telemetry.
- Implemented automated anomalous pattern detection and integrated CI/CD security scanning pipelines for defensive insights.

CJF – Clickjacking & Security Header Scanner [Code]

Python | Multi-Threading | Security Headers | PoC Generator | CVSS Reporting

- Developed a multi-threaded vulnerability scanner auditing `X-Frame-Options`, `CSP`, HSTS, and CORS protections.
- Engineered an automated UI redressing exploit PoC generator producing interactive HTML test harnesses and audit reports.

EDUCATION

Master of Technology (M.Tech) in Cyber Security

- Marwadi University, Rajkot
- 2026 – Present | Ongoing

Bachelor of Technology (B.Tech) in Computer Science and Engineering

- Uka Tarsadia University, Bardoli
- 2023 – 2026 | **CGPA: 8.34**

Diploma in Computer Engineering

- Shree Dhanvantary College of Engineering, Surat
- 2020 – 2023 | **CGPA: 7.74**

SKILLS

- **Offensive Security:** VAPT, Red Teaming, OWASP Top 10, Web App Security, Privilege Escalation, Exploit PoC
- **Security Tools:** Burp Suite, Wireshark, Metasploit, Nmap, Nikto, OWASP ZAP, Scapy, Kali Linux
- **Languages & Scripting:** Python, Bash / Shell Scripting, TypeScript, JavaScript, SQL, C/C++
- **Systems & Networking:** Linux Administration, TCP/IP, DNS, HTTP/HTTPS, Dual-Layer WAF, Firewalls, Git, Docker
- **Core Concepts:** Penetration Testing, Threat Telemetry, Vulnerability Scanning, REST APIs, Automation

CERTIFICATIONS & ACHIEVEMENTS

- **Deloitte Cyber Job Simulation** – Practical Security Simulation Tasks [Verify Credential]
- **Fundamentals Foundations** – Core Cybersecurity Practices [Verify Credential]
- **FutureLearn Cybersecurity Certificate** – Defensive Security Principles [Verify Credential]

LANGUAGES

- English | Hindi | Gujarati
